

Valley Artist

ADEA™

This ADEA™ is an opportunity for all Shenandoah Valley artists to showcase their art in 2-pages of a journal-style book that will be sold locally and nationally. For a small fee DEMIGAIL PUBLISHING will take photographs of the art, write a brief biography of the art/artist, format a book with 27 artists, and release it for publishing (Print-On-Demand).

Gail Napora, of DEMIGAIL PUBLISHING has been working for several years to identify a way to increase the visibility of the talented artists that live and create in the Shenandoah Valley. This ADEA™ is the result. Market research has shown that the best venue for artists is a journal. You can see an excerpt of the prototype she did of her work at www.createpace.com/preview/1087334 and think about how your art would look in a book.

The goal is to accommodate all interested artists by doing successive volumes. The fee, (which will cover travel, camera, and proof costs) also entitles the artist to two free copies of the resulting book, the option to order additional copies at a 40% discount over retail for personal use and resale, and they may be invited to appear on the front or back cover of the book which will be 8.5 x 11, professionally printed, full color, soft-cover, and 64 pages.

Please contact demigail by phone in the evening or by e-mail at info@demigail.com to participate in this ADEA™
